Drinking water

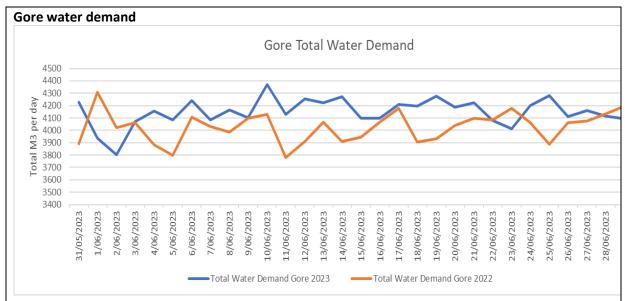

Gore well levels

• The level in the main bore at Cooper's well field has recovered with the recent rain that we have had.

• Jacobstown Well is recovering after the recent rain.

 Gore's total water demand is up a little compared to the last couple of years but not of any concern.

Gore drinking water

- Water consumption in Gore for the month of May averaged 4139 m³/day. This is a 2.62% increase for the same period last year.
- This month, staff replaced a fire hydrant and a valve that was highlighted in recent inspections as faulty.

Mataura drinking water

- Water consumption in Mataura for the month of May averaged 1043.03m³/day. This is a 3.48% decrease for the same period last year.
- This month staff have replaced two water laterals and a fire hydrant.
- Leak detection update we have had five homeowners confirm that repairs have been carried out
 with a water saving of 13.5l/min and with the Council's own repairs being done, a total water
 saving of 102l/min has been achieved, with another 53 to be confirmed.

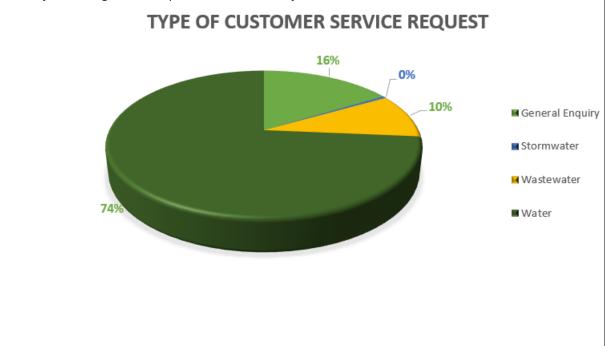

Wastewater and stormwater

- A wastewater main in Mataura has had a section replaced as it was causing problems.
- We have undertaken a repair of a lateral in Mataura causing problems.
- We had a blockage in Waikaka which was caused by fat build-up in the main.
- The Gore, Mataura and Waikaka wastewater treatment plants are continuing to perform well with no discharge consent exceedances being recorded during the current reporting period.

• The Actiflow plant at Gore is about to undergo its annual maintenance shutdown.

Customer service requests (CRM) Total Monthly Customer Service Requests Recieved **■** 2020 **■** 2021 **■** 2022 **■** 2023

- A total of 31 CRMs were received for the month of June. This is just under the total for the same period last year.
- Of the 31 CRMs received during May, 74% or 26 jobs were associated with water supply, 16% or five jobs with general enquiries, 10% or three jobs with wastewater and 0% with stormwater.

3. REPORT FROM THE BUILDING CONTROL MANAGER (Russell Paterson)

Processing timeframes and statistics

• June – a total of 32 BCs granted, average of 14.2 days to process/grant (69% under 20 days).

The team focus to reduce the number of working days taken to process consents is slowly starting to show returns. This, combined with the slowdown of BC applications being received, has enabled the technical team to get on with consent processing earlier in the 20 day cycle than previously. However, the statistics still show the hangover from several months of being under resourced and reliance on external contractors to help us through the buoyant times.

The June statistics included ten consents that exceeded the 20 day timeframe. There are approximately another six that are close to or over the 20 day timeframe that are currently suspended. After that, the processing days are relatively manageable so the 90 - 95% target advised last month is looking very achievable.

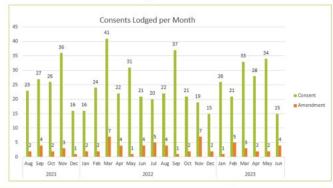

• June - there are four Certificate of Acceptance (COA) applications being processed at the moment, all of which are suspended awaiting further information or completion of minor works associated with the non-compliant or illegal works. These statistics have been included with BC numbers for several years, that practice will not continue from now on as they tend to skew the percentage processed under 20 days, and they are not a BCA function that attract IANZ attention for accreditation purposes.

Note: A separate report is being devised to record COAs, lapsing consents, CCC decisions and Schedule 1 exempt building work figures.

- June 31 CCCs issued, average of 5.5 days (100% under 20 days)
- The following BC and CCC graphs show the numbers issued within the 2022 2023 financial year.

Gore District Council BCA Dashboard

Friday, 30 June 2023

Building consent fees

The proposed fee increases were approved at the Council meeting held on 27 June, taking effect from 1 August 2023. The main change is to include an electronic lodgement fee within each fee category to avoid customer feedback when invoices are received, at the moment they are a separate line item that creates confusion. All fees increases have been compared to our immediate neighbour's fees and discussed with elected members through the annual plan process.

Compliance matters

Building Warrant of Fitness (BWoF) audits - this topic was discussed at the June Policy and Regulatory Committee meeting and the momentum is increasing towards getting out there and undertaking audits of priority buildings first, such as care facilities and short term/long term accommodation facilities. Compliance staff have been out onsite with a Southland DC officer to observe their approach to these audits, which was a very worthwhile exercise from a technical and administrative perspective.

A letter drop is planned to alert all affected building owners, and the audits are being scheduled to officially commence from 1 August 2023.

BWOF renewals - June is our busiest month for receiving annual BWoF renewals. A total of 46 buildings have a June expiry date. Of that number, 29 of those BWoFs were received on time which means 17 are overdue. Any building with an outstanding BWoF breaches the Building Act 2004 - for not supplying and/or displaying a current BWoF. Compliance staff will deliver final owner education and "no response" will be closely followed with enforcement action under the provisions of the Act.

Staff welfare

The team has so far escaped catching too many winter bugs, however a recent burst of flu illness has affected one family. There is also planned annual leave for at least two of the team who have medium – high leave balances. Individual leave balances are now frequently available to Managers to assess when leave requests are made, and also to encourage some team members to consider taking annual leave to reduce their balance to a more manageable level.

▶ Building consent statistics for June 2023 are attached.

Other information:

- A total of 100% of resource consents were processed within RMA timeframes.
- On average, for non-notified resource consents, it took 16 working days to process each application.
- All consents were granted non-notified.
- There are currently 32 applications in for processing, 25 of which are one hold pending the deposit to be paid or for further information, written approvals, or at applicant's request.

Routine Road Maintenance Contract

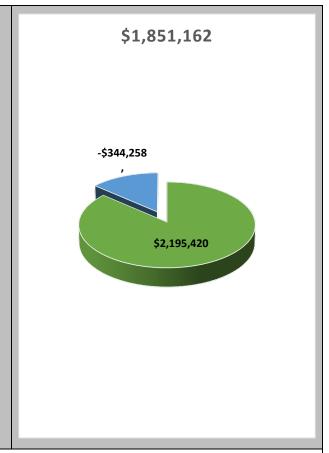

(Term 2+2)

This contract is for the routine maintenance of the Gore roading network.

<u>Previous Contract</u> - Fulton Hogan - to 30 September 2022

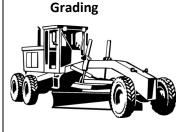

<u>Current Contract</u> - K2 Kontracting - from 1 October 2022

- Routine rural work includes drainage work/culvert replacement, grading, metalling, bridgework, signage.
- Urban work includes hand sweeping, potholes, signage, emergency response, mud tanks grate cleaning, litter pickup and dealing with spills.
- The contract budget (FH & K2) for 2022/23 was \$1,851,162.
- Revised budgets for the 2023/24 year will reflect contract changes.

- The total spent to the end of June was \$2,195,440.
- Fine settled dry weather predominated for much of June allowing grading to continue.
- Hand patching of potholes on some gravel roads was undertaken later in the month when conditions precluded grading.
- Callouts to accidents and other incidents continued during and after work hours.
- Several frosts were recorded during June. Early morning road condition inspections were carried out by contractors' staff however the frosts were mainly dry white frosts and only required a small amount of ice gritting mainly in the Waikaka/Chatton area.

Routine maintenance - June

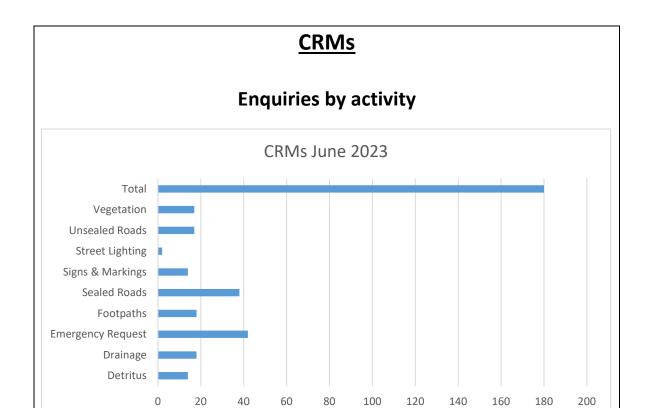

109km

195km

90m³ placed

Future Bulletins will include graphs to indicate progress towards targets for these activities.

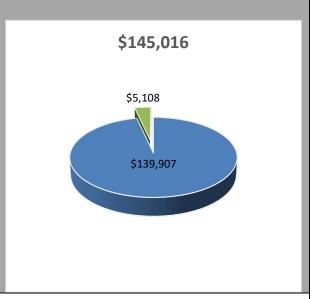

Vegetation Control Contract

(Term 2+2)

Southern Vegetation Control – new contract from 1 August 2022.

The contract includes the spraying of the townships as well as some rural roads and the state highway.

• The budget for 2022/23 was \$145,016.

- Total spent to end of June was \$139,907.
- Rural sealed road culvert ends, and signs spraying has been completed.
- Pest plants spraying completed on State Highways, Waikaka, Waimumu and Kaiwera completed.
- Follow up respraying of pest plants has been undertaken on some roads.
- Urban spraying in Mataura 100% complete, and Gore is 100% completed to date.

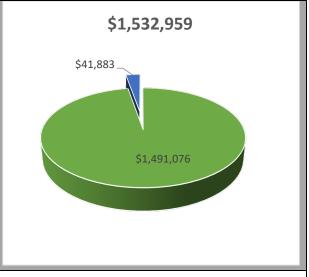

Resurfacing Contract

(Term 1+1+1)

Fulton Hogan, contract was extended for one year to include the 2022/2023 reseal season.

The contract included both the resurfacing and pre-seal repair work across the road network.

 The budget for 2022/23 was \$1,532,959 which included resurfacing and pre-reseal repairs.

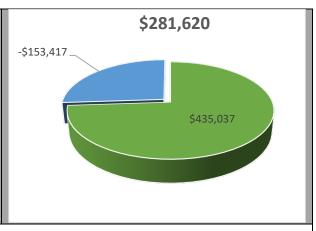

- Expenditure to the end of June was \$1,491,076.
- No resurfacing work was undertaken during the period.
- All reseals have been completed.
- As this was the last season of sealing under this contract all sites have been inspected and been assessed as compliant. The Practical Completion Certificate has been issued for the contract. The 52-week defects liability period is now in place.
- Consultant Beca is currently formulating the resurfacing programme for the next three seasons.
- Procurement for the Council's future resurfacing is being considered including the possibility of collaborating with one of our neighbours.

Concrete and Associated Works (Term 2+2)

McDonough Contracting

Contract includes replacement of sections of urban footpaths, vehicle crossings and street drainage infrastructure. Also includes 3 Waters trench reinstatements.

• Budget for 2022/23 is \$281,620.

- Total spent to 30 June was \$435,037 and includes funding from a 3 Waters project.
- Reinstatement of concrete footpaths and kerbing affected by the 3 Waters upgrade project in Elizabeth Street was the focus during June. This will continue to be the case for the next two months.
- Further concrete works programmed are minor repairs in Elsie, Denton and Kitchener Streets along with Hilbre Avenue.

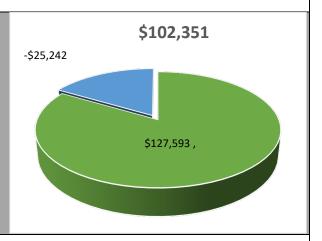

Road Marking Contract

(Term 2+2)

Downer NZ Ltd

Contract for re-marking work across the network, both urban and rural.

- Budget for 2022/23 is \$102,351.
- The new contract commenced on 1 November 2022.

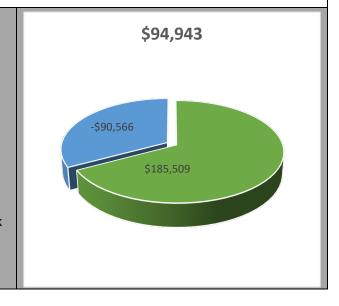

- Total expenditure to end of June was \$127,593.
- Upgrading the intersection controls on the Knapdale Road approaches to its intersection with Otamita and Whiterig Roads to compulsory stops completed the rural pavement marking.
- Urban remarking is also complete. Next season's remarking will begin earlier than last season with a multi-year contract in place.
- Alterations to markings on former Streets Alive sites (Wigan Street/Bury Street, Ardwick Street/Crewe Street and Eccles Street/Elsie Street/Birch Lane) were completed during June.

Mechanical Cleaning Contract (Term 2+2)

Downer NZ Ltd – from 1 October 2022

The contract covers cyclic mechanical sweeping of the Gore and Mataura urban areas, cleaning urban stormwater sumps and some other cleaning of culverts and drainage structures.

- Budget for 2022/23 was \$94,943.
- The budget for this new contract work is currently being reviewed.
- The sweeping cycle is generally on Tuesday and Friday each week.

- Total expenditure to the end of June was \$185,509.
- The autumn leaf pick-up was substantially completed, in conjunction with the Council's Parks and Recreation Department, during the period.

Seal Repair Contract

(Term 2+2)

Supreme Siteworks – from 1 November 2022

Includes repair of various sealed pavement faults such as edge breaks, digouts, levelling of depressions, and pavement stabilisation. Will include pre-reseal repairs from the start of the 2023/24 year.

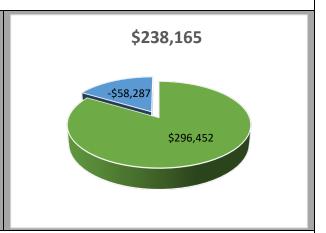

- Regretfully our Senior Roading Operations Officer, Dayle Johnston, announced his resignation from the Roading Team. Dayle will finish with the Council on 20 July. Recruitment of a replacement is underway.
- The Roading team reported no injuries or health and safety issues during June.
- Exemplary use of the 365 Job Start procedures by the Roading team was rewarded with morning tea during the period.
- The Roading Asset Manager successfully completed the new STMS traffic management Inspector course.

Road Safety Southland

• Work continues on the draft Speed Management Plan (SMP) for our District. NZTA requires a draft SMP be available for consultation by early October 2023.

Asset Management

- Roading staff continue to work with consultant, Utility NZ, on the review of the Council's 2024-2034 Transport Activity Management Plan which will inform the reviewed Long-Term Plan. Utility NZ assisted the Council with the review and preparation of the 2021-2031 Transport Activity Management Plan (AMP). Beca, the consultants, are about to undertake deterioration modelling for our network which will inform the AMP.
- A meeting of the Rural Roading Sub-Committee was held on 29 June. Vaughn Crowther from Utility NZ attended the meeting and a very useful discussion regarding issues to be addressed in the AMP review took place. Further interaction with the Sub-Committee is intended as the AMP is developed. This is especially important considering the dissatisfaction of many rural residents with the rural roads.

Other network updates

Mataura welcome signs

Both sign plinths are in Mosgiel at Seddon's having the coatings and other decorations installed.

Kaiwera Downs Wind Farm

Transporting of the turbine components for the 10 turbines contained in the first phase of the project has been completed successfully. An assessment of the pavement condition on the routes taken is about to be undertaken. This will hopefully confirm casual observations that little if any damage has occurred from the transporting of the turbine loads. We do not appear to have had any complaints from the public. This is not surprising as Mercury and its contractors have gone to great lengths to ensure the work went smoothly.

Railway Esplanade pedestrian crossing

Draft design plans were completed by consultant, WSP during June. The Roading Asset Manager consulted with the East Gore School Principal, Wendy Kitto, Richard Pasco representing the Gore Mountain Bike and the owners of Esplanade Motels. Copies of the draft plans were provided to each. All were enthusiastic about the project and supported it. Waka Kotahi subsequently requested some minor changes to draft plan, increasing the width of the median island and changing to a diagonal alignment of the opening in the island from the chicane on the initial draft plan. Once the revised plans are available, construction of the crossing and the footpath to the railway crossing will commence.
