LIGHT INDUSTRIAL ZONE – LIZ

Overview ~~and Purpose~~

The purpose of the Light Industrial Zone is to provide for predominantly *light industrial activities* which do not generate offensive or objectionable levels of *discharges*, odour or *noise* which would create adverse *effects* on the adjoining residential, rural and commercial zones. The Light Industrial Zone will support the economic needs of the local community and fulfil an important role in providing employment opportunities.

The Zone is also appropriate for activities which are compatible with *light industrial activities* and which support the local economy and community. Compatible activities may include *retail activities* such as wholesalers and activities where outdoor storage of goods for sale, carparking, loading and manoeuvring areas are generally required. These activities also typically require more *land* due to the bulky nature of the product being sold and so are generally located on the periphery of established centres. Rather than competing with the Town Centre or other Commercial Zones, these types of activities can complement them.

Sensitive activities which may hinder the efficient use and purpose of the Light Industrial Zone are discouraged from establishing in the zone unless they are ancillary to a permitted activity. Encroachment of non-*industrial activities* or incompatible activities into areas zoned for that purpose may threaten the availability and affordability of industrial *land*.

The Light Industrial Zone is generally an area which has a predominantly working *environment* with lower levels of *amenity value* compared to Commercial Zones. Adverse *effects* are anticipated to be managed within the zone *boundaries*, however, *amenity values* at the interface with other zones should be managed to minimise cross *boundary* ~~a~~effects.

Development Areas[1]

In order to support economic growth within the District additional *land* is identified for ~~general~~ light industrial zoning to the south of Gore and at McNab. The development of thi~~s~~ese areas will be managed through Outline Development Plans (ODPs) to ensure growth occurs in a coordinated manner with good levels of urban design, connectivity, integrated servicing *infrastructure* and provision of green corridors. The Development Area Chapter provisions are applicable to thi~~s~~ese areas. It is anticipated ~~this zone~~ that the Gore South Development Area will develop in a staged fashion based on the future use of the Racecourse.

[1] Additions consequential to Decision 12 McNab

Large Format Retail Precinct (PREC1)

Provision of some limited *large format retail activities* is anticipated within the Light Industrial Zone between the railway line and Mersey Street in the *Large Format Retail* precinct (PREC1). Elsewhere in the zone *large format retail* is not encouraged due to the risk of detracting from the Town Centre.

This chapter contains objectives, policies, and rules which apply specifically to the *Large Format Retail* Precinct in addition to the provisions of the underlying Light Industrial Zone. Where there is any conflict between the provisions the Precinct provisions ~~shall~~ must prevail.

Creamoata Precinct (PREC2)

Specific provision is made for the Sargent Dan Stockfood activity which is based in the Creamoata Building (formerly Flemmings). A precinct (PREC2) is provided on this *site* in recognition of the connection and association the activity has with the historic use of the Creamota Building and the regional significance of the activity in terms of economic and employment opportunities.

This chapter contains objectives, policies, and rules which apply specifically to the Creamoata Precinct in addition to the provisions of the underlying Light Industrial Zone. The Precinct provisions ~~shall~~ must prevail where there is any conflict between the provisions.

Objectives

LIZ-O1 The Light Industrial Zone contributes to the economic ~~wellbeing~~ well-being of the community by providing for a range of existing and future *light industrial activities*.

LIZ-O2 The range of activities provided for within the Light Industrial Zone do not detract from the vitality, vibrancy and character of the Commercial and Mixed Use Zones.

LIZ-O3 The purpose of the Light Industrial Zone is not compromised by incompatible activities or built form.

LIZ-O4 The Light Industrial Zone provides for a safe, functional working *environment* with an appropriate and reasonable level of amenity consistent with the purpose of the Zone.

LIZ-O5 The adverse environmental *effects*, including *reverse sensitivity* ~~or impacts, on Ngāi Tahu cultural values,~~ generated by activities within the Light Industrial Zone are managed, particularly at the Zone boundaries.[2]

~~LIZ-~~PREC1-O1 The *Large Format Retail* precinct enables *large format retail activities* establishing in a location close to the Town Centre Zone to support the purpose and function of that Zone.

[2] Decision 21, paragraph 3.4.6

~~LIZ-~~PREC2-O1 The Creamoata Precinct enables the ongoing use of the Creamoata Building and associated *site* by Sargent Dan Stockfoods Limited (or a similar business) to process, package and distribute stock food and undertake ancillary associated activities which utilise the historic mill and oven facilities on the *site*. The precinct supports the regionally significant activity and historical connection with the Creamoata Building as a milling and processing *site*.

Policies

LIZ-P1 Enable activities to establish which support the purpose of the Light Industrial zone, including *light industrial activities*, *service stations*, *trade and industry training facilities* and *emergency service facilities*.

LIZ-P2 Provide for compatible activities to establish and operate within the Light Industrial Zone where they are:

1. of a similar scale and nature to other permitted activities;~~ or~~
2. ancillary to the main activity on *site*; or
3. necessary to support the needs of workers within the zone.

LIZ-P3 Avoid activities that may:

1. undermine the viability, vitality and function of the Town Centre and Local Centre Zones;
2. generate significant *discharges* such as odour, *dust*, *contaminants* or *noise*<u>*; or*</u>
3. result in conflict and/or potential *reverse sensitivity effects* with existing or anticipated activities.

LIZ-P4 Require activities and development to maintain a level of on-*site* amenity, particularly at zone interfaces, consistent with the purpose of the zone by:

1. ensuring the bulk, location and scale of *structures* are compatible with the role and function of the zone;
2. requiring outdoor storage and service areas to be screened along *road* and side *boundaries* to protect *amenity values* of adjoining *sites* avoid cross *boundary effects* and maintain or enhance streetscape amenity;
3. requiring appropriate *setbacks* to ~~waterways~~ <u>*waterbodies*</u> to maintain and enhance their amenity, ~~Ngāi Tahu cultural values and~~ natural character <u>and *access* by *mana whenua* for *mahinga kai* and customary activities</u>;[3]

[3] Decision 21, paragraph 3.5.5

4. providing landscaping, particularly along *road* frontages, to maintain *amenity values* within the Zone and in streetscapes; or
5. responding to the underlying relationship between Ngāi Tahu and the natural *environment*.

LIZ-P5 Manage adverse *effects* of activities within the Zone to maintain the character and amenity of adjoining Zones.

LIZ-P6 Enable the use of *reserve land* where the activity and/or development is consistent with the relevant Reserve Management Plan.

~~LIZ-~~PREC1-P1 Enable *large format retail activities* to complement the Town Centre Zone whilst ensuring the anticipated *amenity values* of the Light Industrial Zone are maintained.

~~LIZ-~~PREC2-P1 Enable the continued use of the Creamoata Building for milling, processing, packaging and *ancillary activities* which recognise and utilise the historic function and purpose of the *building*.

~~Notes~~

~~Note 1~~	~~Provisions in Other Chapters~~
	~~The provisions in this chapter apply in addition to the provisions of the other chapters in the District Plan and the plan should be read as a whole.~~ ~~This chapter also implements other chapters in the District Plan that do not have specific rules such as Sites and Areas of Significance to Māori and Mana Whenua.~~
~~Note 2~~	~~Other legislation~~
	~~The provisions of the National Environment Standard for Assessing and Managing *Contaminants* in Soil to Protect Human Health which apply where a HAIL activity has been undertaken on the *land* subject to specified activities and *subdivision*. In certain circumstances resource consent will be required from the Gore District Council. In the first instance reference should be made to the register of HAIL activity *sites* held by the Gore District Council.~~ ~~The provisions of regional plans prepared by Environment Southland. This includes the taking, use and *discharge* of *water*, the *discharge* of *contaminants* to *land*, *water* or air and the erection of *structures* in *river beds*. In certain circumstances resource consent will be required from Environment Southland.~~
